

One Day
Faculty Development Programme
On
National Education Policy-2020
13/09/2022 (Tuesday)
Report

Internal Quality Assurance Cell of the college organized one day faculty development Programme on National Education Policy 2020 on 13th September 2022. The event was hosted for the teachers working in schools and colleges of Pathri Taluka Shikshan Prasarak Mandal, Manwath. The implementation of NEP is round the corner. But there seems to have least awareness among teachers regarding actual nature of the policy, its impact, the challenges, process and opportunities it offers. There is no excuse for any of the educational institution of withdrawing their interest. Hence a proper knowledge of the policy and its implications is needed to the stakeholders and more particularly to teachers as they ought lead from the front in the process of actual implementation.

Prof. Dr. D.N. More, People's College, Nanded and Dr. Balaji Chirde, Head, History Department of People's College, Nanded were invited as guest speakers to enlighten the teachers on diverse aspects of the policy. D.N. More covered almost all the aspects of the policy. He emphasized on the challenges in actual implementation of the policy. He added that the policies introduced before the present policy had their own merits. The point of consideration is how it is implemented actually. The process or act of implementation is based on the involvement of stakeholders who play an important role directly or indirectly. He explained further that how HEIs are going to be Multidisciplinary centres in nearest future.

In the second session of the Programme Dr. Balaji Chirde argued on challenges and opportunities offered by new education policy in terms of primary and secondary education in our country. There are going to have remarkable changes with implementation of the policy. The policy determines to transform the educational system of the country. Actually, it is going to be a revival of ancient schooling in the country. The makers of the policy intend to give more importance to the act of learning than teaching. The reforms would be a responsibility of all stake holders. But there is no funding provision. Hence how to get these reforms in actual

motion is a question. There is a possibility of facing certain hurdles when the actual process of implementation would start. Both the speakers agreed to a great extent that the **National Education Policy-2020** is going to transform the existed educational system right from its root. The programme was presided by Shri Vijaykumarji Katruwar,President PTSPM,Manwath. Principal Dr. Bhaskar S. Munde put on record introductory remark. Dr Durgesh Ravande,Coordinator, IQAC introduced the guests , Dr. Kailash Borude, Coordinator, NAAC expressed vote of thanks. Dr. Sharda Raut compared the event. Vice Principal Dr.Kishor Huge, Dr.B.S. Gite and more than fifty teachers form different school and college units of PTSPM took active part in the programme.
